

Patient Portal

Greater Washington Maternal Fetal Medicine & Genetics uses an online patient portal to share test results with you. Our online patient portal is through a company called Privia.

Please provide us with an e-mail address that you check on a regular basis. Shortly following your first appointment at GWMFM, you should receive an e-mail from Privia with instructions on how to set up the patient portal. *If you do not receive this e-mail, make sure to check your junk/spam inbox. If you still do not receive an e-mail, please let our front desk staff know.*

In order to receive your test results, you must activate your patient portal. We highly recommend that you set up your patient portal shortly after receiving the welcome e-mail from Privia in order to ensure you receive your test results in a timely manner. When a test result is entered into your patient portal by our staff, you will receive an e-mail notification.

A copy of your test results will also be sent to your obstetrician's office.

Thank you for your cooperation!

Greater Washington Maternal Fetal Medicine & Genetics Staff

Disclaimer: Please be sure to let our office staff know if there are any discrepancies or inaccurate information in your patient portal.

I _____ DOB _____, acknowledge that I have received the notification about the patient portal. I am aware that I need to activate my patient portal in order to receive test results from Greater Washington Maternal Fetal Medicine & Genetics.
